International
Exhibition Centre**

UDYAMI BHARAT

One Home, One Enterprise, One Strong Nation

India was never built by borders — it was built by builders. Rooted in the wisdom of Vasudhaiva Kutumbakam — the world is one family — Udyami Bharat unites entrepreneurs across every sector, from Real Estate and Agriculture to MSME, Healthcare, Finance, Education and Media. **As India's first AI-powered, ward-rooted, family-focused business platform, it serves the everyday Udyami — home businesses, first-generation founders, youth, seniors and women entrepreneurs alike. Through its app Udyami Kutumba, members tap into AI-matched leads, local market intelligence and a directory of 20,000+ entrepreneurs. The belief is simple: when a business grows, its ward grows; when wards grow, cities grow; and when cities grow, Bharat grows.** The Udyami Bharat Expo is the platform's flagship offline gathering — the one moment each year when this ward-level network comes together, in person, under one roof. It is not a showcase or a trade fair, but a living ecosystem where one entrepreneur's challenge becomes another's opportunity. Above all, it is Karnataka's most powerful proof of a single idea: when its people unite, nothing is beyond reach

Jai Udyami. Jai Bharat.

Hosted at BIEC — Bengaluru International Exhibition Centre, one of South India's largest and most iconic convention venues spanning 40,000 sq. mtrs. of world-class exhibition space.

A landmark of prestige, sustainability, and modern infrastructure — the perfect stage where Karnataka's entrepreneurial spirit rises to meet the nation.

ICOBSTM (Industrial Consortium for Online Buying & Selling) is India's AI-powered industrial trade ecosystem, connecting manufacturers, buyers, suppliers, MSMEs, industrial associations, exhibition organisers, government institutions, financial partners, logistics providers, and global businesses on a single platform.

Rather than functioning as a conventional B2B marketplace, ICOBSTM operates as an integrated ecosystem: one where businesses discover opportunities, build verified relationships, generate qualified enquiries, participate in exhibitions, and accelerate growth through AI-driven collaboration.

Mission

To build India's most trusted industrial business ecosystem — enabling seamless collaboration between manufacturers, buyers, institutions, government bodies, associations, and global markets through technology, innovation, and AI-driven solutions.

Vision

To become the world's leading digital industrial ecosystem, empowering businesses of every size to connect, collaborate, trade, and innovate — in support of India's Atmanirbhar Bharat and Viksit Bharat ambitions.

THE 7 PILLARS OF UDYAMI BHARAT EXPO & CONCLAVE

ONE PLATFORM. EVERY POSSIBILITY. BUILT FOR BHARAT'S BUILDERS.

INNOVATION

Real problems demand real solutions — AI-powered leads, strategic analysis, and expert mentoring ensure every problem you walk in with is solved before you walk out and every opportunity already has a strategy. Not later. Now.

GROWTH

At Udyami Bharat, we go beyond offering a stall; we act as your growth partner, managing and nurturing every lead, connection, and conversation to ensure long-term business growth from the event.

INCLUSION

Every scale matters, from startups in Bengaluru to established business entities—every voice holds significance, and each business deserves representation at the table.

COLLABORATION

Every wall removed. Every sector connected. Every right person in the same room — finally.

BUSINESS

500+ stalls. 7 sectors. 50k+ visitors. Product launches, investor matching, B2B exchanges, and deals signed before Day 1 ends.

AWARDS & RECOGNITION

Honouring the Nation builders, the changemakers, and the quiet giants whose work has shaped Karnataka — because excellence deserves a stage.

GOVERNANCE

Where business ambition and community purpose move together — because the strongest economies are built by leaders who serve both.

Udyami Bharat: A Dynamic Collaborative Business Platform

The Udyami Bharat platform embodies the essence of a collaborative business environment. It is not merely a showcase or a trade fair; it represents a vibrant ecosystem where your challenges transform into others' opportunities, and their solutions become yours. This is more than just an expo; it is Karnataka's most compelling affirmation that when its citizens unite, anything is achievable.

MAKE IN INDIA

ATMANIRBHAR BHARAT

*Atmanirbhar Bharat isn't just a slogan —
it's an order book. Make it in India. Make it here.*

Udyami Bharat Expo is where two of the nation's biggest missions come alive. Make in India set out to turn the country into a global manufacturing hub; Atmanirbhar Bharat calls on our enterprises to build at home what India once imported. Both run on the shoulders of MSMEs — and Edition 4 is your platform to answer that call.

From defence components once bought abroad to precision parts now feeding global supply chains, MSMEs are proving that self-reliant doesn't mean second-best. Backed by PLI incentives, import substitution and a national push for indigenisation, every stall at Edition 4 is both a vote for a stronger Bharat and a business riding one of the biggest industrial shifts in the country's history.

BHARAT'S INDUSTRIAL OPPORTUNITY

MSMEs are the engine of India's economy, and the four sectors on show at Edition 4 are among the fastest-growing in the country. This is the market you tap into when you exhibit.

SECTOR FOCUS

FOUR VERTICALS. ONE MARKETPLACE. RESERVE YOUR SPACE IN THE ZONE WHERE YOUR BUYERS ARE LOOKING.

THE BACKBONE OF BHARAT'S MANUFACTURING.

GENERAL ENGINEERING

FACTORIES THAT THINK, ARMS THAT BUILD.

AUTOMATION & ROBOTICS

POWERING EVERY ENTERPRISE.

ELECTRICAL & ELECTRONICS

PRECISION THAT PROTECTS A NATION.

AEROSPACE & DEFENCE

“The global economy rewards the formidable, not the fragmented. India has every ingredient to lead the world: the talent, the tradition, the technology, and the numbers. What we need now is collective will — and that collective will begins here, in Karnataka.”

OUR FOUR SECTORS, IN FIGURES

\$116.7 BN

Engineering-goods exports, FY25
an all-time high (General Engineering)

6TH

India's global rank in annual
industrial-robot installations
(Automation & Robotics)

₹13.11 LAKH CR

India's electronics production,
FY25 — up ~7x in a decade
(Electrical & Electronics)

₹1.54 LAKH CR

India's defence production, FY25 — a
record high (Aerospace & Defence)

India also posted record defence exports of ₹23,622 crore in FY25 and is targeting ₹3 lakh crore in annual defence production by 2029 — with roughly 65% of defence equipment now made in India. Every one of these numbers is an order waiting to be won by an MSME supplier.

EXHIBITOR PROFILE

THE BACKBONE OF BHARAT'S MANUFACTURING.

GENERAL ENGINEERING

- CNC machining, turning, milling and grinding job-work units
- Sheet-metal, fabrication and structural-engineering firms
- Foundries and forging units – castings and forgings
- Die, mould, tool and pattern makers
- Fasteners, bearings, springs, gears and industrial components
- Machine tools, cutting tools, gauges and metrology equipment

FACTORIES THAT THINK, ARMS THAT BUILD.

AUTOMATION & ROBOTICS

- Industrial robot and cobot manufacturers and integrators
- Robotic work-cells, pick-and-place, palletising and AGV/AMR systems
- PLC, SCADA, HMI, DCS and motion-control providers
- Sensors, machine-vision and IIoT solution companies
- Material-handling and conveyor system suppliers
- Turnkey factory-automation and Industry 4.0 system integrators

POWERING EVERY ENTERPRISE.

ELECTRICAL & ELECTRONICS

- Switchgear, control panels, transformers, motors and drives
- Cables, wiring, connectors and busbar suppliers
- PCB fabricators, EMS providers and electronic-component makers
- Batteries, EV charging, energy storage and power electronics
- Solar and renewable-energy equipment firms
- Electrical testing, measurement, calibration and safety equipment

PRECISION THAT PROTECTS A NATION.

AEROSPACE & DEFENCE

- Precision-machined and sheet-metal aero-component suppliers
- Aerospace-grade fabrication and special processes (heat/surface treatment, NDT)
- Avionics, wire-harness and electronic sub-assembly makers
- Defence components, MRO and ground-support equipment vendors
- Materials, composites, testing and certification services
- Vendors to Tier-1 primes, DPSUs, HAL and DRDO ecosystems

Also welcome: MSME manufacturers, job-work and ancillary units, raw-material and consumable suppliers, technology and software providers, service and consultancy firms, and engineering start-ups – first-time and established exhibitors alike.

VISITOR PROFILE

- OEMs, primes and large manufacturers sourcing components and job work
- Purchase, procurement and vendor-development managers
- Supply-chain and sourcing heads
- Quality and production engineers evaluating new suppliers
- Distributors, dealers, stockists and wholesalers
- Import-export houses and trading firms
- Retailers and resellers expanding their product lines
- System integrators and automation consultants
- Design, R&D and project engineers
- Plant, maintenance and operations managers
- Architects and consultants specifying engineering products
- Government departments, PSUs, DPSUs and defence procurement bodies
- Industry associations, MSME clusters and chambers of commerce
- Banks, NBFCs, investors and financial institutions
- Incubators, accelerators and start-up mentors
- Academia, technical students and job-seekers

STALL OUTLOOK AND SPECIFICATIONS

EXAMPLE OF: 3×3

- Shell scheme octanorm structure with fascia name board (company name + logo)
- 1 × 5-amp power socket (standard lighting and small display screens)
- 1 table and 2 chairs
- Event security across all 3 days, 24-hour CCTV monitoring
- Inclusion in the official Udyami Bharat Expo 2026 exhibitor directory (printed + digital)
- Brand listing on the expo website and mobile event app
- 2 × complimentary delegate passes per stall (all-day access, meals included)
- Access to all 4 stages for business sessions, panels, and networking events

STALL ADD-ON OPTIONS

Add-On	Size / Specification	Price
